## CARNEY DIVORCE IS BEING HEARD

Clarence Carney, on Stand Most of Day, Tells His Story of Cruel and Inhuman Treatment

**QUESTIONED ABOUT PROPERTY**  
Mrs. Carney, Contesting Suit, Seeks \$6,000 Alimony and Divorce on Cross-Complaint

The divorce suit of Clarence Carney against Mrs. Effie Carney started this morning in circuit court before Judge Sparks. The suit promises to be one of the hardest fought in recent years and will probably last throughout tomorrow as both sides have a large number of witnesses. Mr. Carney was on the stand most of the morning and again took the stand at the start of the afternoon session.

Mrs. Carney is contesting the suit and seeks the divorce on a cross-complaint in which she alleges cruel and inhuman treatment. She alleges that he is worth \$15,000 and asks alimony in the sum of \$6,000. Both parties desire the custody of their daughter, Marian, age 14. This is the second time the Carneys have appeared in the divorce court. A decree was entered once before and then they remarried.

Mr. Carney related his story of cruel and inhuman treatment. He stated that on many occasions his wife refused to cook his meals and he was compelled to do this housework. He said his wife had a high temper and on one occasion while he was cooking eggs for his breakfast, Mrs. Carney grabbed the skillet and threw the eggs in his face. He said that while traveling for a fertilizer firm, which work took him away from home many times, his wife would remark to him "that she hoped to God he got killed before coming back." Mr. Carney stated that she had made this remark as many as twenty or twenty-five times.

On cross-examination Carney's financial matters were gone into in detail. He listed his indebtedness and told of his funds. He also told the amount of stock he has on the farm.

John A. Tittsworth and A. L. Gary represent Mr. Carney while Kiplinger and Smith appear for Mrs. Carney.

Thomas E. Davidson of Greensburg was appointed special judge to try the case of the Rush County Mortgage Loan Association against Lawrence J. Geraghty and Mary Geraghty on a note and to foreclose a mortgage, demanding \$1,850.

Judge Sparks found for the defendants, Willard Colter and Harry Colter in the suit brought against them by Evelyn White, on a note demanding \$660. The costs are against the plaintiff.

Greece Releases Adherents of Former Premier Venizelos

(By United Press.)  
Athens, Jan. 18.—Release of all imprisoned adherents of former Premier Venizelos was announced as completed today.

It appears that the Greek government is finally acceding complete acquiescence to the allies demands. The principal contention in recent negotiations has been over disinclination of the royal government to free adherents of former Premier Venizelos.

Brother of Rushville Women Expires at Home in Anderson

Dr. John C. Cullen, 78 years old, a brother of the late Judge W. A. Cullen, died last night at his home in Anderson following a long illness from senility and a complication of diseases. Dr. Cullen served throughout the Civil war and for many years was a practicing physician in Anderson, retiring from active practice several years ago. He is survived by two sisters, Mrs. John A. Jones and Mrs. W. A. Caldwell of this city. The funeral services will probably be Friday afternoon and burial will take place in Anderson.

## PREPAREDNESS AND PEACE SYMBOLIZED

New Twenty-Five Cent Pieces Received Here Today Carry Spirit of Times in Design

## THE EAGLE AND LIBERTY

Peace and preparedness is written large in the spirit of the design on both sides of the new twenty-five cent pieces received today by all three of the National banks in Rushville.

On the obverse side of the quarter Liberty is shown, a full length figure from the upper to the lower rim of the coin. Her head is turned to the left and she is shown stepping toward the Gateway of the country. On the gateway wall is the familiar "In God We Trust." Miss Liberty is also in the act of tearing the cover from her trusty shield, typifying her attitude towards protection.

In her right hand she holds forth an olive branch. These two symbolize peace and protection. On the reverse is an eagle in full flight, across the coin. The designer is Hermon A. MacNeill, and his initial is visible just to the right of the date, which appears at the lower part of the obverse side.

The new directors then met and elected officers as follows: A. B. Irvin, president; R. C. Hargrove, vice-president; T. L. Heeb, secretary and Mrs. M. D. Binkley, assistant secretary.

## GIVES 9 EXCUSES COMMONLY USED

Evangelist at U. P. Church Recalls Popular Reasons For Not Following Jesus Christ

## TOO MUCH TO GIVE UP IS ONE

Another is "I Don't Like the Pastor" and "Too Many Hypocrites in the Church."

The Rev. D. D. Dodds last night at the United Presbyterian church gave nine popular and commonly used excuses for not following Jesus Christ and replied to all of them. He will speak tonight from the text, "For there is no difference." Last night he took for his text Luke 9:61, "Lord I will follow thee,—But."

"Many resolutions are only half resolutions," declared Dr. Dodds. "The man of whom my text speaks made an excellent resolution. He represents multitudes, who have in mind to enter into a life of godliness but stumbled at the gate. Just as he was about to make a full and final decision there was something loomed up which held him back, and hindered him from making an unconditional surrender.

"The Bible holds others up before us as a solemn warning, Felix, Agrippa, Simon Magnus, Demas. These are all solemn warnings against indecision. They all would have followed Jesus, only there is a 'But' in the way. All would unite with the church, but not now. All would take a place at the Lord's table, but not now. All would lead a Christian life, but not now. They remind us of ships which when night is spread upon the sea emerge for a moment from the darkness as they cross the quivering pathway of the moonbeams and then disappear for a moment.

"The man of the text offered an excuse for not following the Master. Men are still so doing. Excuses are popular today. Let us consider some of the excuses that are being offered for men not coming to Jesus Christ. First, I don't like the pastor of the church. Pastors are only messengers. Men have nothing to do with the messenger, but with the message. The message is from heaven. Flaws in the life of the minister of the gospel, you can find them, many of them. Put I defy you to find a flaw in the life of Jesus Christ.

"Second—There is too much to give up if I become a Christian. A hard thing to become a Christian! That is absolutely unreasonable. It is a libel against Christianity. The Bible says the way of the transgressor is hard. Nothing to give up when you come to Jesus Christ! Of course there is. A drunkard is expected to give up the intoxicating cup. The gambler is expected to destroy his cards; the frivolous to give up their frivolity; the gossip and slanderer to abandon their nefarious practices. All these must be given up. But God asks you to give up these things only because they are doing you harm. The Lord God is a sun and shield. The Lord will give grace and glory. No good thing will be withheld from them that live uprightly. Here is a guarantee that God will never ask you to give up anything that is not for your good. And what you give up is nothing in comparison with what you receive. The bubbles of the world's pleasure are not to be compared to the golden emeralds of heaven.

"Third—There are too many hypocrites in the church. Hypocrites in the church there are a great many good people in it too. In fact the best people in the world are in the blood-bought church of Jesus Christ. And for every hypocrite in the church there are fifty in the world. Do you know where are all the hypocrites are going? They are going to hell. Do you know where

## DRY BILL PASSES ITS FIRST TEST

Reported Favorably by Public Morals Committee of House With Two Amendments Suggested

## JINNETT BILL BEFORE HOUSE

Measure to Abolish Legal Clerk to Public Service Commission Gets Favorable Report

(By United Press.)

Indianapolis, Ind., Jan. 18.—The dry federation's prohibition bill successfully passed its first test in the legislature today when the house committee on public morals reported unanimously in favor of the passage of the measure. Two amendments were proposed by the committee, one making the law effective January 1, 1918 instead of next September and the other providing that licensed physicians may procure liquor.

The bill introduced by Representative Jinnett of Rush county to abolish the office of legal clerk to the public service commission was reported upon favorably by a committee in the house today. Representative Jinnett also introduced a bill raising the fare between Corydon and Corydon's Junction from 15 to 25 cents.

The house under suspension of rules passed unanimously a bill introduced by Rep. Harmon of Princeton providing that counties may establish leper colonies in connection with county farms.

Rep. Moore introduced a bill which would abolish the primary system of nominating candidates and a hot fight on the measure is predicted.

The senate session today was harmonious. Changes in the workmen's compensation act are proposed in a bill introduced by Senator Hagerty of South Bend. The bill would provide for a judge in each congressional district to hear evidence in cases of industrial accidents. The state board would be retained to hear only appeals. It provides that district judges shall be paid \$900 to \$1,200.

Senator Elsner of Seymour introduced a bill providing that county libraries may be established on petition of 100 taxpayers.

The senate passed the bill presented by Senator Simmons of Bluffton providing that in case a beneficiary of a will contests the will, the clause under which the person contesting the document would be benefited is declared void.

## NO CREDENCE OUT IN RUMOR

Greensburg News Publishes Report Jeff Davis May Land Plum

According to a rumor circulated in Greensburg yesterday, Jefferson C. Davis of Clarksburg, was in line for the appointment of United States Marshall for Indiana. According to a story in the Greensburg News, Senator Watson was behind the appointment. Locally the story is considered a mere "grapevine" as it would be almost impossible for Senator Watson to get a republican appointment through a democratic administration. Friends here of Jeff Davis would be elated if he should land the plum, but there is little chance with Senator Watson having no say so in the matter of patronage.

## BILL HITS SALOON.

Indianapolis, Ind., Jan. 18.—Representative Dilworth of LaPorte county is planning to introduce a bill in the house which would prohibit saloon-keepers from cashing pay checks and receiving part of them for intoxicating liquors. He believes that a great amount of the evil attributed to saloons would be eliminated by this measure.

## BURNED BY BOILING WATER

Mrs. Mary Powell was severely burned by boiling water this morning when the contents of a tea kettle were dashed over her after she slipped and fell as she was going out the back door of her home, 917 North Main street. The lid of the kettle came off as Mrs. Powell went down and the boiling water poured over her. The burns while quite severe are not expected to prove serious although Mrs. Powell is seventy-eight years old. Mrs. Powell is the mother of Homer Powell.

## NUMBER SUNK IS INCREASED TO 26

Latest Reports Account for 24 Merchantmen Sent Down by German Raider and 2 Missing

## BRITISH FLEET IN PURSUIT

By CHARLES P. STEWART  
(U. P. Staff Correspondent.)  
(Copyright 1917 by United Press)

Buenos Aires, S. A., Jan. 18.—The British navy as represented in South Atlantic waters is today in full cry on the hunt for the German raider still at large which today is believed to have sunk or captured 26 allied merchant ships.

Latest reports account for 24 merchantmen rounded up by the Teutonic raider and with two additional vessels missing it is believed they too have been sunk or captured.

Four fast cruisers including the famous Glasgow are understood to be leading the hunt for the raider. One report as yet unconfirmed also declared a Japanese cruiser has joined in the chase.

Search is also being made for the Tinto which sailed under suspicious circumstances.

The belief is growing that the Tinto carried supplies to the German raider. When last seen the Tinto was manned by a German crew.

## COMPLICATIONS MAY BE RESULT

Strained Relations With Germany Likely if American Lives Were Sacrificed by Raider

## MAY BE CLUB FOR PEACE MOVE

(By United Press.)

Washington, Jan. 18.—International complications with Germany will follow if American lives were sacrificed contrary to international law in the German raider's activities, according to an official today. The official indicated peace maneuvers would not prevent this government from taking some action if its rights were invaded. It was suggested that threat of trouble between the two governments might be a club that would force Germany into line on the peace move.

It was indicated that the authorities are far from hopeful for the peace movement at this moment.

Several state department officials said this afternoon no word had come through official channels concerning the raid and their only information concerning Americans came from press dispatches.

## INTIMIDATION CHARGED

## 150 EAT DINNER IN BASEMENT

Statistical Report Discloses Progress Made During Year—Two Addresses Tonight

Each of the seventeen Christian churches of the county was represented at the county conference today at the Main Street Christian church. The conference heard addresses by the president of the county organization, George C. Wyatt; G. I. Hoover of Indianapolis, state evangelist for this district; Frederick W. Burnham of Cincinnati, president of the American Christian Missionary society; Lucy King DeMoss of Cincinnati, office secretary of the Foreign Christian Missionary society; and Miss Louise Kelly of Indianapolis, a C. W. B. M. worker.

More than 150 sat down to the dinner served in the basement of the church at noon. Business was transacted this afternoon and tonight Miss DeMoss will speak at 7:35. At 8:15 Mr. Burnham will deliver an address. This morning the conference heard the reports for the year of the department superintendents and the annual report of the secretary, showing the activities of the churches in the county.

Dr. Hoover addressed the conference this morning on "The Needs and Opportunities of District Work," showing the value of organization. Miss DeMoss was assigned to the topic, "How to Teach Missions in the Sunday School" this morning, but was unable to complete her address in a half hour and finished it this afternoon. This morning she dwelt on how to get ready to teach missions in the Sunday school and this afternoon gave practical methods which may be employed.

Miss DeMoss said she had the record of only one Sunday school in the county using the definite missionary program started last year by the foreign board. She urged a missionary committee in the Sunday school, with the most missionary person as chairman and a member from each department. She also advised a definite program and that originality be injected into it.

Up to noon reports had been tabulated on only eleven churches, but several others came in during the noon hour and the remainder were expected before the afternoon session began. The following statistics are for eleven churches:

Of the eleven, four have ministers full time, five half time, one a fourth of the time and the other monthly. New members added during the year by baptism numbered 89 and by fellowship 68. Forty-six members were lost in 1916. The present membership is 3,070 and the total value of all church property, including parsonages, was given as \$113,050. No debts were reported. Ministers salaries for the 11 congregations total \$8,011.50 and all other local expenses were given at \$3,413.44.

The 11 churches expended for missions last year \$1,591.62, divided as follows: state, \$84.05; American \$278.57; foreign, \$529.95; all others, \$558.63. The enrollment of the Sunday schools of 8 of these churches was 1,159.

This afternoon Dr. Burnham spoke on "A Missionary Program in the Church," and Miss Kelly's topic was, "Women's Work in the Church." The committee on place, consisting of George Thomas, James Cross and Mrs. Elwood Kirkwood was expected to pick Rushville for the next meeting. The nominating committee was composed of Mrs. John Stiers, Mrs. O. A. Leisure and Mrs. Green Thompson. It was expected their

## ARGUMENTS ON LAW QUESTIONS

Legal Phase of Lee Hearing up Before Gov. Goodrich Today—Constitutionality Attacked

### CLAIM CASE NOT SUFFICIENT

Lawyers for Lee Claim Governor Has no Power to Remove Him and That he is Progressive

(By United Press.) Indianapolis, Ind., Jan. 18.—Legal questions arising out of the demand for removal of Edwin M. Lee as a member of the public service commission, were argued before Gov. James P. Goodrich today. Evidence in the case was heard last week.

Attorneys for Lee contended that, although the public service commission law has stipulated that the chief executive may remove a member of the commission, the clause is unconstitutional; that the evidence produced by the prosecution is not sufficient for removal of Lee and that Lee is a Progressive and is not a democrat, as was claimed in charges filed by Bernard E. O'Connor.

Lee was appointed a member of the commission by former governor Samuel M. Ralston shortly before the latter's term of office expired. One of the first official acts of Gov. Goodrich after taking office on Jan. 8, was to demand Lee's resignation on the ground of incompetency. Lee refused and O'Connor's charges were then filed.

He declared that Lee was a democrat instead of a progressive and this made him ineligible to serve on the commission. The law stipulates that no more than three members of the commission can be of any one party. There are already three members of the commission who are democratic.

In support of these charges, testimony was presented to show that Lee was in touch with the democratic state headquarters last autumn. A stenographer declared that she had mailed out more than 1,000 letters bearing Lee's signature and that he often talked over the telephone with men connected with the democratic campaign.

## CONSIDER CENSORSHIP

Movie Men of State Discuss Censorship Proposition

(By United Press.)

Indianapolis, Ind., Jan. 18.—Movie men of Indiana met at the Severin hotel today to discuss proposed state censorship of moving picture films and other vital questions. Considerable sentiment has developed among the members of the legislature for regulation of the films shown in the state and it is very likely a bill calling for the creation of a state board of movie censors will appear before the session is ended.

Cranston Brenton, member of the National Board of Review of New York city, made the opening address today. Club women of Indiana were invited to hear the talk.

### HAVE YOU NOTICED ANY BEES BUZZING AROUND?

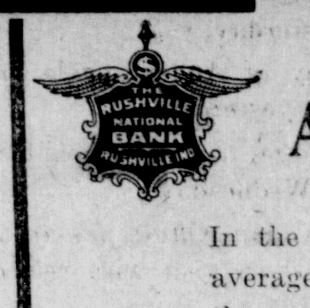

(By United Press.)

Indianapolis, Ind., Jan. 18.—Due to the warm weather this winter, bees have been flying nearly every day and there is great danger that strong, healthy colonies will rob honey from the weak or dead hives, according to State Entomologist Wallace.

"Bees consume much more honey during a warm winter than when the weather is below freezing," said Wallace. "Consequently the bees are using up their winter stores and if they are not fed, they become weak and die. The colonies which are still strong, on finding a weak colony, rob the hive of the remaining stores."

"Whenever there is a foul brood in the neighborhood, it is almost sure to spread to all colonies which are robbing. It is the diseased colonies which die first and the honey from these colonies will spread to healthy ones."

## THE MYSTIC SEVEN

The number seven has passed through history. It is supposed to have originated from the three sides of the triangle and the four sides of the square; or the observation of the seven planets. However, the fact remains that it appears persistently. The world was created in seven days, every seventh year was Sabbatical, all through the Old and New Testament the figure seven was symbolical, the Dove was sent from the Ark on its second mission just seven days from the first mission. Pharaoh's dream was of the seven lean and seven fat kine. This dream was interpreted by Joseph as seven years of plenty and seven years of famine. Joseph provided for the seven years of famine by storing up in the seven years of plenty. Have you done the same thing? History repeats itself! We are now in the seven years of plenty! Why not save up for a possible famine? I can help you!

### ORGANIZATION IS THEME OF CHURCH CONFERENCE

Continued from Page 1.

report would be adopted this afternoon.

President Wyatt said the greatest need of the country was a more perfect organization, or rather an organization that will do things.

"The field is great," he continued, "the opportunities unequalled and it only needs the united efforts of the churches of Christ to take the lead in the Christian work of the country. There are no jealousies, no excuses for withholding our efforts for the spread of the gospel. Fraternity in its fullest meaning exists among our churches.

"Organization is seen in every department of life and should be supreme in the religious world. We hear a great deal said today about efficiency, about service and preparedness. All these depend for success upon the one foundation—perfect organization. So I plead today for a closer union of Christ's churches, not only in the country, but in the state and the world and then we will be blessed with seeing the banner of Christ our saviour the great center around which the disciples will gather."

### OWENS STILL ON JOB.

Indianapolis, Ind., Jan. 18.—Bob Owens, the Bedford bloodhound king is determined that he will get the legislature to enact a law which will allow hounds to be taken into court as evidence and giving the owner of hounds police powers so he can arrest any man which the hounds have tracked. A bill with these provisions was introduced in the house but was killed by the committee. Now Owens has another bill drafted, carrying the same provisions but with different wording.

### It Works! Try It

Tells how to loosen a sore, tender corn so it lifts out without pain.

Good news spreads rapidly and druggists here are kept busy dispensing freezons, the ether discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers. Ask at any pharmacy for a quarter ounce of freezone, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus.

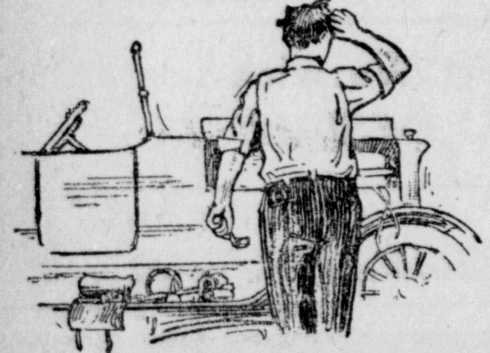

You apply just a few drops on the tender, aching corn and instantly the soreness is relieved, and soon the corn is so sorvleated that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue. This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

#### 1917 in Politics

The political problems of this year, stated in terms of national legislation and administration, belong exclusively to the democratic party. They will inaugurate a president for a second term in March; and they may be able to organize the house of representatives in December. They already have and will retain the control of the senate.

It will be their duty to conduct our foreign relations amicably and honorably, to administer our domestic affairs economically and efficiently, and to provide revenues for the treasury equitable and adequately. They will find ample occupation.

The republicans also have work for Nineteen Seventeen. It is their duty to prepare for Nineteen Eighteen and for Nineteen twenty. The organization must be strengthened and perfected—purged if need be—and the party spirit must be stimulated for the contests which are to come.

Freed from responsibility for national affairs, the republican party nevertheless retains responsibility for the government of many of the states and for all of the important states. In these legislatures and in these state administrations the republican party has the opportunity to demonstrate its character as a political organization, its efficiency as an instrument of government, and its value and usefulness to the people. This opportunity embraces no progressivism has taken on a narrowed political interpretation in recent years—must continue; the republican party must carry it on. This way safely lies.

Nineteen Seventeen is prolific

### WOMEN SHOULD GET THIS HABIT AS WELL AS MEN

Don't eat bite of breakfast until you drink glass of hot water

Happy, bright, alert—vigorous and vivacious—a good clean skin; a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic, throng of rosy-cheeked people everywhere.

An inside bath is had by drinking each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism; colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood while the pores in the thirty feet of bowels do.—(Adv.)

In the event of a shortage in gold we might use eggs as a circulating medium.

### IS LIMITED TO FARMERS ONLY

Under Terms of Farm Loan Act They Are Only Class That Has Right to Borrow.

#### TEN CAN FORM ASSOCIATION

Are Permitted to Borrow up to 30 Per Cent of Assessed Value —Not Over \$10,000.

BY FRANK R. WILSON.  
Of the Federal Farm Loan Bureau.  
(Written for United Press.)

Washington, Jan. 18—The right of borrow under the Farm Loan Act is limited to farmers and prospective farmers.

Farmers or prospective farmers who wish to borrow group themselves into Farm Loan Associations, each association being composed of ten or more farmers, and each association starting with a minimum of at least \$20,000 of loans.

To join, a farmer merely makes application to the secretary-treasurer of the loan association in his community. If none has been organized he should get together the required number of borrowers and organize an association.

The Federal Farm Loan Board at Washington will furnish, on application, a blank form of articles of association for such organizations. Then the organizers meet and adopt these articles and sign them and the secretary-treasurer makes affidavit thereto.

This association then elects five or more directors and the directors then elect a president, vice-president, secretary-treasurer, and a loan committee of three members.

As soon as the Federal Land Bank of that district is ready for business it will provide this local association with additional blanks including an application for a charter and blanks for the loan committee to use in the work of appraising the farms.

As soon as the loan committee is elected it may proceed to appraise the farms upon which mortgages are to be placed. Its report, which must be unanimous, must accompany the signed articles of association and be filed with the Federal Land Bank of that district.

When this is done the appraiser of the Federal Land Bank will come to inspect the security offered and accept or reject the report of the loan committee.

No one farmer may borrow more than \$10,000 nor less than \$100. No National Farm Loan association may start with aggregate loans less than \$20,000.

If John Smith, a farmer, desires to borrow \$200 he invests in the stock of his local loan association one-twentieth of this amount, or \$100.

His association then invests this money in the stock of the Federal Land Bank, enabling it thus to increase its capital so as to make another loan of \$2000 to some other farmer. The borrower gets his investment back when he pays off his loan, or he may turn it in as the last payment on his loan.

Farmers are required to form these organizations so that they eventually will control the Federal Land Banks. Each loan association votes in the election of the directors of its Federal Land Bank. Each association has a loan committee which values the land of its members subject to the approval of the land bank appraiser and the Federal Land Bank. Each association has a board of directors which has the power to exclude or admit new members by a two-third's vote. It is through this local loan association that the farmer invests the money to be used for increasing the capital stock of the Federal Land Banks, and this is how the farmer comes into possession of his own banking system.

Farmers are permitted to borrow up to 30 per cent of the appraised value of their land and 20 per cent of the appraised value of the permanent insured improvements thereon.

It is not necessary for a borrower to be an actual land owner when he joins, but the landless man must use the borrowed money to purchase land which he intends to immediately begin farming. Another chapter will be devoted to this feature.

## BILL TO PROTECT THE CONSUMERS

Representative Winesburg Would Prevent Shutting Off Service by Utilities

ALSO AIMS ONE AT RAILROADS

(By United Press.) Indianapolis, Ind., Jan. 18.—Representative Winesburg of North Manchester will introduce a bill in the lower house, probably this week, providing that consumers may protest against the amount charged for their service, when they consider the price unreasonable, and not have their service suspended. Under the present law public utility companies are allowed to stop service when a consumer fails to pay the amount prescribed by utilities.

Winesburg will also introduce a bill providing that railroad cars cannot be placed less than twenty feet from crossings. He contends that when they are placed closer than twenty feet from crossings, they obstruct the view of travelers and result in many accidents.

## GIVES NINE EXCUSES COMMONLY USED

Continued from Page 1.

Who reject Jesus Christ are going?

"The Bible says, 'He that hath the Son hath life, and he that hath not the Son hath not life, but the wrath of God abideth on him.'"

"Fourth—I am a moral man but not a perfect man. A man may be a moral man, he may be a temperate man, honest, respectable, but if morality, temperance, honesty and respectability will save, then God made an awful mistake when He permitted His Son to suffer and bleed and die on Calvary's cross for the redemption of the world. But these things will not save. Salvation can only come through the appropriation of the atoning work of Jesus Christ. Morality and honesty and temperance and respectability are all ladders reaching toward heaven, but they are all too short.

"Fifth—I am waiting for my friend, my husband, my wife. Come to Christ first and bring your friends with you. Husbands and wives should seek the Master together—the wife with the husband, and the husband with the wife, the parents with the children and the children with the parents.

"Sixth—I am too great a sinner. The Bible teaches differently. Hear Paul's words, 'This is a faithful saying and worthy of all acceptance, that Christ Jesus came into the world to save sinners, of whom I am chief.' Come now let us reason together. Though your sins be as scarlet they shall be white as snow, though they be red like crimson they shall be as wool; 'The blood of Jesus Christ His Son cleanseth from all sin.'

"Seventh—I can not hold out. Holding out is not your business. That's the business of the Lord Jesus Christ. 'He is able to keep you from falling.' Our heavenly Father says to the faltering timid soul, 'Fear not for I am with thee; be not dismayed for I am thy God; I will strengthen thee, yea I will help thee, I will up hold thee with the right hand of my righteousness.'

"Eighth—I have no time to attend church. Hear me. You will have time to die. Hence, better prepare to meet God. The business man, the doctor, the lawyer, the merchant, the politician, who are so busy that they have no time for divine services both teaching and healing, have more business than God ever intended that they should have. And he will probably shelve them for a time that they may meditate on spiritual things.

"Ninth—God won't receive me if I come—I have sinned away my day of grace. Such a statement is perfectly absurd. God says, 'Him that cometh unto me I will in no wise cast out.' 'The Spirit and the Bride say come. Let him that heareth say come. Let him that is athirst come. And whosoever will, let him take the water of life freely.'"

The club members went early in the morning and at noon an elegant three course dinner was served. During the afternoon the regular meeting of the club was held after which the hostess served a dainty lunch. The members who attended were Mrs. Louis C. Hiner, Mrs. Charles Frank, Mrs. Bruce Beck, Mrs. Theodore Abernethy, Jr., and Mrs. Knowles Casady. Mrs. Casady had been visiting in Shelbyville for several days and returned last evening. The next meeting will be with Mrs. Casady.

The supper given for the members of the Loyal Daughters and Young Men's Circle of the Christian church surpassed all expectations in the delightful time that was enjoyed by the fifty young people. The two long tables arranged in the basement of the church were lit with yellow candles. About these the guests were seated for the service of the two course oyster supper. Music was played throughout the evening which was spent informally. Among the fifty guests were a dozen members of the Young Men's Circle and the remainder of the guests were Loyal Daughters. The Rev. C. M. Yocum teaches the former class and Mrs. Yocum the latter.

The supper was a pitch-in affair, each guest aiding in the furnishing of the delicious meals. The social committee of the Loyal Daughters which managed the party is composed of the Misses Ella Wilson, Nina Hill, Bessie Morris, Florene Gronier, Wanda Wyatt and Dora Winkler.

Elsie Hankins was surprised at her home yesterday afternoon after school by a number of her friends who gathered honoring her 7th birth-

day. Games were played and refreshments were served to the group of guests including Dorothy Schatz, Carrie and Violet Long, Cornelia Smith, Marybelle Cox, Henrietta and Emma Louise Sharp, Mary Carr, and Della May Woods.

The golden wedding anniversary of Mr. and Mrs. Alfred Buell was celebrated at their country home northeast of the city yesterday when several of their relatives were entertained at dinner. A bouquet of flowers centered the table and other decorations appropriate to the day were used. A three course dinner was served for which covers were laid for Mrs. Rachel Buell, Miss Alice Buell, Martin Blackledge, Mr. and Mrs. D. C. Buell, Mr. and Mrs. Alfred Blackledge and three children. The guests of honor received several appropriate gifts.

The banquet given in Connersville last evening for the Odd Fellows lodge was attended by several local lodge members. There was an immense crowd including representatives from 32 lodges, seven of which were outside of the state. Following the conferring of the 1st and 2nd degrees, the visitors were the guests of the Connersville Odd Fellows at an elaborate banquet which was served. Among those from this city attending were Arnold Ormes, J. T. Arbuckle, Will Jones, Earl Moore, Frank Melhwaite, and J. H. Stevens.

An all day meeting of the Departmental Club of Fairview will be held February 3rd in connection with the farmers institute to be held on that day in the school building. This was the decision at the meeting of the Departmental Club held at the school building last evening. The numbers on the practical program were excellent. Prof. E. R. Jeffries gave a talk on the proposed school legislation, giving a very clear idea of the movement. Mr. Vanderventer talked on the "Conservation of Soil for Fertility." Miss Mary Hinchman gave a musical monologue "An Old Sweetheart of Mine" and Mr. and Mrs. Russel Baker played a piano and saxophone duet.

The institute which will be held on February 3rd was discussed. During the morning session, the different departments will be divided for conferences and in the afternoon, they will combine to hear one program.

It was also announced that one hundred volumes have been sent from the library extension department to the club. They are now in the school library and free access may be obtained to them by applying to the librarian. This traveling library is one phase of work being done by the club.

## ENGLAND'S NOTE POINTS THE WAY

Supplementary Communication Shows Method by Which Wilson May Continue Peace Efforts

OFFICIAL OPINION TODAY

Administration Concludes Allied Powers are Fighting to Prevent Future Aggression

By ROBERT J. BENDER (U. P. Staff Correspondent.)

Washington, Jan. 18.—England has pointed the way to President Wilson for continuing his work toward a lasting peace, according to official belief here today.

From the supplementary communication, the administration concludes the Entente powers are fighting to prevent future aggression.

It is evidently their belief that President Wilson can do much toward evolving some plan for an international preventative force to limit future wars and by intimation the suggestion that he pursue this course is made.

The supplementary note, which was delivered to the state department late yesterday afternoon amplifies the allied reply to President Wilson's peace note, by explaining in detail why the entente powers believe it impossible to attain a peace which will assure them such guarantees as they consider essential.

The note also explains why the allies demand the expulsion of Turkey from Europe, restoration of Alsace-Lorraine to France, of Italia irredenta to Italy, and the other territorial changes set forth.

Those who think the future peace of the world may be insured by international laws, the note says, have ill-learned the lessons taught by recent history. The note charges that German influence in Turkey has resulted in conditions as barbarous and more aggressive than were known under Sultan Abdul Hamid and that it had been shown Germany can not be expected to respect treaty obligations.

Great Britain's note was entirely unexpected to officials here, but was gratifying because they interpreted it as a step toward the world federation to preserve peace which President Wilson, both in his speeches and in his peace note, has pledged the United States.

Great Britain justifies her continuance of hostilities, it was pointed out, not only for the immediate objects of the war, but also on the necessity that "behind international law and behind all treaty arrangements for preventing or limiting hostilities, some form of international sanction should be devised which would give pause to the hardest aggressor." It is just some such arrangement, it was pointed out, which President Wilson has been urging and which is expected to cause wider disagreement in American foreign policy than any other question raised in the country's history. Great Britain's answer was inter-

has not hit us—yet. The price of our acids and chemicals which are used in our cleaning department, has advanced far from our means to purchase them—we bought them before this war began and have enough on hand to last until it ends, maybe. Be prudent. Preserve the materials of your clothes by having them dry cleaned and pressed. You can't buy new clothes for what you paid for the present ones.

## TRAMPS ENROUTE TO CONVENTION

Annual Meeting of Council of Migratory Workers of America Set for Buffalo

EXACT DATE IS INDEFINITE

(By United Press.)

Cleveland, Jan. 12.—On foot, by freight, and, maybe by passenger coach, 200 delegates are heading for Buffalo to attend the national convention of the American Council of Migratory Workers of the World. In other words the gentlemen tramps of America.

Murray Youtz, national secretary whose office is in Cleveland, explained today that it is impossible to fix the exact time for the convention. Uncertain arrival of delegates will determine the starting time. When they reach Buffalo the convention will begin. This probably will be within the next two weeks.

The council is working for government ownership of railroads, employment of the unemployed by the government on public improvements; free transportation of workmen to where needed; municipal ownership of food supply and cheap loans by the government.

### GASOLINE CATCHES FIRE

A bad fire was averted when a blaze started in the back end of the Bowen garage last night shortly after six o'clock. Some gasoline that had leaked on the floor ignited in some manner and the flames shot up, but were quickly put out with fire extinguishers. Some one seeing the blaze turned in an alarm but the fire was soon put out.

### Pride For Family.

Of course all of us are proud of our people—and of our ancestors too, for that matter. Almost every family has some prominent forefather, whether he came over on the crowded Mayflower or whether he fought with Napoleon. He was important in his time, at any rate.

The person who is not proud of his descent would be unworthy of very much consideration, but we are very often inclined to carry our ancestry into circles where it is not welcome. There is nobody who has more blue blood in her veins than my friend Ethel, yet she seldom if ever speaks of it. She does not need to. Her manner and character speak sufficiently for her.

Marie, on the other hand, tells us skumpty-umpty times each day how her grandfather on her father's side did this or that, and how her great-great-great-uncle on her mother's side was Queen Elizabeth's closest friend, and many other tales about her people.

If a certain person does not show her the courtesies which she so loves, she will tell you how she is far better than that one, and how her

nature, owing to her blue blood, should not brook such rudeness. It's all right to think it. I perhaps think such things myself, but I try not to voice my thoughts.

Then Marie somehow seems to believe that wealth goes a long way in making one important. It does in some circles, I grant you, but most people are not concerned about the finances of your father's side of the family, or your mother's side, either.

Some of the finest people in the country are not even in comfortable circumstances, but their minds and characters are none the worse for their modest finances.

I dearly love to trace my family to the days of the Revolution when So-and-so accomplished this great-feat-and-so-on. In fact, Mother o' Mine and myself often spend a pleasant evening discussing our family history before the crackling fire.

Be proud of your ancestors, friends. Make your every act worthy of some stalwart forefather who fought for his country. But to try to make your friends fond of him too can not be accomplished by drumming his virtues into their ears.

## FEWER BILLS INTRODUCED

Session Promises to be Lightest in Ten Years.

Indianapolis, Ind., Jan. 18.—Speaker Eschbach of the house today stated that in his belief the work of the present legislature would be the lightest, considering the number of bills introduced, since 1907. There are fewer measures before both houses at the present time than there has been in the last ten years for the corresponding time the legislature has been in session, according to Eschbach.

"The propositions now before the legislature are probably of more importance and of more interest, but the bills are fewer in number," the speaker stated.

### ORGANIZATION IS THEME OF CHURCH CONFERENCE

Continued from Page 1.

report would be adopted this afternoon.

President Wyatt said the greatest need of the country was a more perfect organization, or rather an organization that will do things.

"The field is great," he continued, "the opportunities unequalled and it only needs the united efforts of the churches of Christ to take the lead in the Christian work of the country. There are no jealousies, no excuses for withholding our efforts for the spread of the gospel. Fraternity in its fullest meaning exists among our churches.

"Organization is seen in every department of life and should be supreme in the religious world. We hear a great deal said today about efficiency, about service and preparedness. All these depend for success upon the one foundation—perfect organization. So I plead today for a closer union of Christ's churches, not only in the county, but in the state and the world and then we will be blessed with seeing the banner of Christ our saviour the great center around which the disciples will gather."

### OWENS STILL ON JOB.

Indianapolis, Ind., Jan. 18.—Bob Owens, the Bedford bloodhound king is determined that he will get the legislature to enact a law which will allow hounds to be taken into court as evidence and giving the owner of hounds police powers so he can arrest any man which the hounds have tracked. A bill with these provisions was introduced in the house but was killed by the committee. Now Owens has another bill drafted, carrying the same provisions but with different wording.

### It Works! Try It

Tells how to loosen a sore, tender corn so it lifts out without pain.

Good news spreads rapidly and drug-gists here are kept busy dispensing freezone, the ether discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers. Ask at any pharmacy for a quarter ounce of freezone, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn and instantly the soreness is relieved, and soon the corn is so softened that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

### CAR OWNERS!

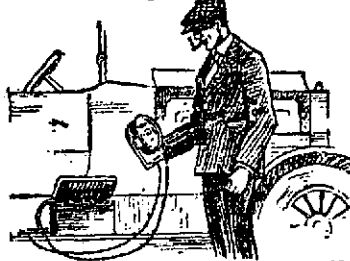

You are interested in our announcement of the arrival of

The machine that enables us to locate starting and lighting trouble easily and thereby saves you money. We do not use the guesswork way.

But we use AMBU The scientific way:

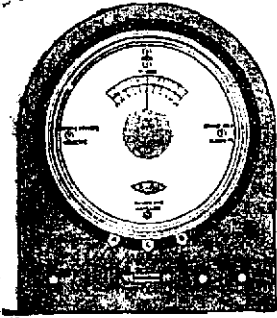

which means we save you from 10 to 20 hours in repair bills when you have trouble. You can save expense and trouble by having your car tested each month. Troubles not apparent will be found and eliminated before great damage is done.

**BUT WE DO MORE THAN THAT.** By our monthly inspection service, we catch and stop non-apparent troubles before great damage is done. This scientific service is possible because we have "inside information" about the miniature electric plant on your car—a complete knowledge of its construction—wiring diagrams showing every wire on your car, and AMBU, the systematic tester and trouble finder.

This is another example of our desire to secure for the car owner, the newest and most valuable service-inventions in the electric engineering field.

#### 1917 in Politics

The political problems of this year, stated in terms of national legislation and administration, belong exclusively to the democratic party. They will inaugurate a president—for a second term—in March; and they may be able to organize the house of representatives in December. They already have and will retain the control of the senate.

It will be their duty to conduct our foreign relations amicably and honorably, to administer our domestic affairs economically and efficiently, and to provide revenues for the treasury equitable and adequately. They will find ample occupation.

The republicans also have work for Nineteen Seventeen. It is their duty to prepare for Nineteen Eighteen and for Nineteen twenty. The organization must be strengthened and perfected—purged if need be—and the party spirit must be stimulated for the contests which are to come.

Freed from responsibility for national affairs, the republican party nevertheless retains responsibility for the government of many of the states and for all of the important states. In these legislatures and in these state administrations the republican party has the opportunity to demonstrate its character as a political organization, its efficiency as an instrument of government, and its value and usefulness to the people. This opportunity embraces no progressiveism has taken on a narrow political interpretation in recent years—must continue; the republican party must carry it on. This way safely lies.

Nineteen Seventeen is prolific

### WOMEN SHOULD GET THIS HABIT AS WELL AS MEN

Don't eat bite of breakfast until you drink glass of hot water

Happy, bright, alert—vigorous and vivacious—a good clean skin; a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic, throng of rosy-cheeked people everywhere.

An inside bath is had by drinking each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism; colds; and particularly those who have a pallid, shallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood while the pores in the thirty feet of bowels do.—(Adv.)

If you must have variety, make it "Jack of all trades and good at all."

No fluctuations, however, have been noted in the market quotations on postage stamps.

### IS LIMITED TO FARMERS ONLY

Under Terms of Farm Loan Act They Are Only Class That Has Right to Borrow.

#### TEN CAN FORM ASSOCIATION

Are Permitted to Borrow up to 30 Per Cent of Assessed Value —Not Over \$10,000.

BY FRANK R. WILSON.

Of the Federal Farm Loan Bureau.

(Written for United Press.) Washington, Jan. 18—The right of borrow under the Farm Loan Act is limited to farmers and prospective farmers.

Farmers or prospective farmers who wish to borrow group themselves into Farm Loan Associations, each association being composed of ten or more farmers, and each association starting with a minimum of at least \$20,000 of loans.

To join, a farmer merely makes application to the secretary-treasurer of the loan association in his community. If none has been organized he should get together the required number of borrowers and organize an association.

The Federal Farm Loan Board at Washington will furnish, on application, a blank form of articles of association for such organizations. Then the organizers meet and adopt these articles and sign them and the secretary-treasurer makes affidavit thereto.

This association then elects five or more directors and the directors then elect a president, vice-president, secretary-treasurer, and a loan committee of three members.

As soon as the Federal Land Bank of that district is ready for business it will provide this local association with additional blanks including an application for a charter and blanks for the loan committee to use in the work of appraising the farms.

As soon as the loan committee is elected it may proceed to appraise the farms upon which mortgages are to be placed. Its report, which must be unanimous, must accompany the signed articles of association and be filed with the Federal Land Bank of that district.

When this is done the appraiser of the Federal Land Bank will come to inspect the security offered and accept or reject the report of the loan committee.

No one farmer may borrow more than \$10,000 nor less than \$100. No National Farm Loan association may start with aggregate loans less than \$20,000.

If John Smith, a farmer, desires to borrow \$200 he invests in the stock of his local loan association one-twentieth of this amount, or \$100.

His association then invests this money in the stock of the Federal Land Bank, enabling it thus to increase its capital so as to make another loan of \$2000 to some other farmer. The borrower gets his investment back when he pays off his loan, or he may turn it in as the last payment on his loan.

Farmers are required to form these organizations so that they eventually will control the Federal Land Banks. Each loan association votes in the election of the directors of its Federal Land Bank. Each association has a loan committee which values the land of its members subject to the approval of the land bank appraiser and the Federal Land Bank. Each association has a board of directors which has the power to exclude or admit new members by a two-third's vote. It is through this local loan association that the farmer invests the money to be used for increasing the capital stock of the Federal Land Banks, and this is how the farmer comes into possession of his own banking system.

Farmers are permitted to borrow up to 30 per cent of the appraised value of their land and 20 per cent of the appraised value of the permanent insured improvements thereon.

It is not necessary for a borrower to be an actual land owner when he joins, but the landless man must use the borrowed money to purchase land which he intends to immediately begin farming. Another chapter will be devoted to this feature.

## BILL TO PROTECT THE CONSUMERS

Representative Winesburg Would Prevent Shutting Off Service by Utilities

ALSO AIMS ONE AT RAILROADS

(By United Press.)  
Indianapolis, Ind., Jan. 18.—Representative Winesburg of North Manchester will introduce a bill in the lower house, probably this week, providing that consumers may protest against the amount charged for their service, when they consider the price unreasonable, and not have their service suspended. Under the present law public utility companies are allowed to stop service when a consumer fails to pay the amount prescribed by utilities. Winesburg will also introduce a bill providing that railroad cars cannot be placed less than twenty feet from crossings. He contends that when they are placed closer than twenty feet from crossings, they obstruct the view of travelers and result in many accidents.

## GIVES NINE EXCUSES COMMONLY USED

Continued from Page 1.

He who reject Jesus Christ are going?

"The Bible says, 'He that hath the Son hath life, and he that hath not the Son hath not life, but the wrath of God abideth on him.'"

"Fourth—I am a moral man but not a perfect man. A man may be a moral man, he may be a temperate man, honest, respectable, but if morality, temperance, honesty and respectability will save, then God made an awful mistake when He permitted His Son to suffer and bleed and die on Calvary's cross for the redemption of the world. But these things will not save. Salvation can only come through the appropriation of the atoning work of Jesus Christ. Morality and honesty and temperance and respectability are all ladders reaching toward heaven, but they are all too short.

"Fifth—I am waiting for my friend, my husband, my wife. Come to Christ first and bring your friends with you. Husbands and wives should seek the Master together—the wife with the husband, and the husband with the wife, the parents with the children and the children with the parents.

"Sixth—I am too great a sinner. The Bible teaches differently. Read Paul's words, 'This is a faithful saying and worthy of all acceptance, that Christ Jesus came into the world to save sinners, of whom I am chief.' Come now let us reason together. Though your sins be as scarlet they shall be white as snow, though they be red like crimson they shall be as wool; 'The blood of Jesus Christ His Son cleanseth from all sin.'

"Seventh—I can not hold out. Holding out is not your business. That's the business of the Lord Jesus Christ. 'He is able to keep you from falling.' Our heavenly Father says to the faltering timid soul, 'Fear not for I am with thee; be not dismayed for I am thy God; I will strengthen thee, yea I will help thee, I will up hold thee with the right hand of my righteousness.'

"Eighth—I have no time to attend church. Hear me. You will have time to die. Hence, better prepare to meet God. The business man, the doctor, the lawyer, the merchant, the politician, who are so busy that they have no time for divine services both teaching and healing, have more business than God ever intended that they should have. And he will probably shelve them for a time that they may meditate on spiritual things.

"Ninth—God won't receive me if I come—I have sinned away my day of grace. Such a statement is perfectly absurd. God says, 'Him that cometh unto me I will in no wise cast out.' 'The Spirit and the Bride say come. Let him that is athirst come. And whosoever will, let him take the water of life freely.'"

## ENGLAND'S NOTE POINTS THE WAY

Supplementary Communication Shows Method by Which Wilson May Continue Peace Efforts.

### OFFICIAL OPINION TODAY

Administration Concludes Allied Powers are Fighting to Prevent Future Aggression

By ROBERT J. BENDER (U. P. Staff Correspondent.)

Washington, Jan. 18.—England has pointed the way to President Wilson for continuing his work toward a lasting peace, according to official belief here today.

From the supplementary communication, the administration concludes the Entente powers are fighting to prevent future aggression.

It is evidently their belief that President Wilson can do much toward evolving some plan for an international preventative force to limit future wars and by intimation the suggestion that he pursue this course is made.

The supplementary note, which was delivered to the state department late yesterday afternoon amplifies the allied reply to President Wilson's peace note, by explaining in detail why the entente powers believe it impossible to attain a peace which will assure them such guarantees as they consider essential.

The note also explains why the allies demand the expulsion of Turkey from Europe, restoration of Alsace-Lorraine to France, of Italia irredenta to Italy, and the other territorial changes set forth.

Those who think the future peace of the world may be insured by international laws, the note says, have ill-learned the lessons taught by recent history. The note charges that German influence in Turkey has resulted in conditions as barbarous and more aggressive than were known under Sultan Abdul Hamid and that it had been shown Germany can not be expected to respect treaty obligations.

Great Britain's note was entirely unexpected to officials here, but was gratifying because they interpreted it as a step toward the world federation to preserve peace which President Wilson, both in his speeches and in his peace note, has pledged the United States.

Great Britain justifies her continuance of hostilities, it was pointed out, not only for the immediate objects of the war, but also on the necessity that "behind international law and behind all treaty arrangements for preventing or limiting hostilities, some form of international sanction should be devised which would give pause to the hardest aggressor." It is just some such arrangement, it was pointed out, which President Wilson has been urging and which is expected to cause wider disagreement in American foreign policy than any other question raised in the country's history.

Great Britain's answer was interpreted as her official acceptance and endorsement of the president's proposal.

## TRAMPS ENROUTE TO CONVENTION

Annual Meeting of Council of Migratory Workers of America Set for Buffalo

### EXACT DATE IS INDEFINITE

(By United Press.)

Cleveland, Jan. 12.—On foot, by freight, and, maybe by passenger coach, 200 delegates are heading for Buffalo to attend the national convention of the American Council of Migratory Workers of the World. In other words the gentlemen tramps of America.

Murray Youtz, national secretary whose office is in Cleveland, explained today that it is impossible to fix the exact time for the convention. Uncertain arrival of delegates will determine the starting time. When they reach Buffalo the convention will begin. This probably will be within the next two weeks.

The council is working for government ownership of railroads, employment of the unemployed by the government on public improvements; free transportation of workmen to where needed; municipal ownership of food supply and cheap loans by the government.

### GASOLINE CATCHES FIRE

A bad fire was averted when a blaze started in the back end of the Bowen garage last night shortly after six o'clock. Some gasoline that had leaked on the floor ignited in some manner and the flames shot up, but were quickly put out with fire extinguishers. Some one seeing the blaze turned in an alarm but the fire was soon put out.

**ANITA STEWART SAYS—**

### Pride For Family.

Of course all of us are proud of our people—and of our ancestors too, for that matter. Almost every family has some prominent forefather, whether he came over on the crowded Mayflower or whether he fought with Napoleon. He was important in his time, at any rate.

The person who is not proud of his descent would be unworthy of very much consideration, but we are very often inclined to carry our ancestry into circles where it is not welcome.

There is nobody who has more blue blood in her veins than my friend Ethel, yet she seldom if ever speaks of it. She does not need to. Her manner and character speak sufficiently for her.

Marie, on the other hand, tells us skimpily-emptily times each day how her grandfather on her father's side did this or that, and how her great-great-great-aunt on her mother's side was Queen Elizabeth's closest friend, and many other tales about her people.

If a certain person does not show her the courtesies which she so loves, she will tell you how she is far better than that one, and how her

nature, owing to her blue blood, should not brook such rudeness. It's all right to think it. I perhaps think such things myself, but I try not to voice my thoughts.

Then Marie somehow seems to believe that wealth goes a long way in making one important. It does in some circles, I grant you, but most people are not concerned about the finances of your father's side of the family, or your mother's side, either.

Some of the finest people in the country are not even in comfortable circumstances, but their minds and characters are none the worse for their modest finances.

I dearly love to trace my family to the days of the Revolution when So-and-so accomplished this great feat—and so on. In fact, Mother o' Mine and myself often spend a pleasant evening discussing our family history before the crackling fire.

Be proud of your ancestors, friends. Make your every act worthy of some stalwart forefather who fought for his country. But to try to make your friends fond of him too can not be accomplished by drumming his virtues into their ears.

## FEWER BILLS INTRODUCED

**Session Promises to be Lightest in Ten Years.**

Indianapolis, Ind., Jan. 18.—Speaker Eschbach of the house today stated that in his belief the work of the present legislature would be the lightest, considering the number of bills introduced, since 1907. There are fewer measures before both houses at the present time than there has been in the last ten years for the corresponding time the legislature has been in session, according to Eschbach.

"The propositions now before the legislature are probably of more importance and of more interest, but the bills are fewer in number," the speaker stated.

## ANOTHER WARM FIGHT EXPECTED

**Bill to Abolish Capital Punishment Expected to Stir up Opposition.**

Indianapolis, Ind., Jan. 18.—The bitterest fight in the legislature two years ago over bills which would have prohibited capital punishment as a penalty for murder will probably be repeated at this session, according to present indications. Measures which would prohibit infliction of the death penalty are now before both houses.

Opponents of the bills point to the large number of murders now committed in the state and declare that if the death penalty was inflicted more frequently, it would serve to decrease the number of homicides. Figures gathered by the bureau of statistics show that Indiana ranges fifth among states in the number of homicides. Nearly 200 were committed in less than two years.

## IT DID AT THE LAST SESSION

**TODAY'S HOOSIER ODDITY**

Danville, Ind., Jan. 18.—An interurban car performed a Caesarean operation on a sow when it struck her. Live pigs were scattered along the tracks and most of them survived. The car was held up two hours by the accident.

## HAVE DARK HAIR AND LOOK YOUNG

**Nobody can Tell when you Darken Gray, Faded Hair with Sage Tea.**

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. When ever her hair took on that dull, faded, streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time remedy improved by the addition of other ingredients, all ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.
